

Conservatory Greenhouse

Solexx™

Conservatory includes:

- Twin-wall Solexx™ panels.
- Heavy-duty composite frame: Rust, corrosion and mildew free.
- Double-tiered center and two single-tiered bench frames: 29" deep. Holds 500 lbs. each.
- Four full-length hanging rods: Holds 200 lbs. each.
- Sturdy built-in base: Requires no foundation.
- Large Easy-Flow Louver air vent: *(Optional automatic solar-powered louver opener).*
- Two lockable doors.
- Easy-to-assemble steel fittings.
- 10-year limited warranty.

Our Tallest Most Spacious Greenhouse

The Conservatory is popular with nurseries, schools, and serious gardeners. The 9'6" height lets you grow big and tall, from seedlings to large plants, even small trees. The Conservatory features substantial growing capacity with two single-tier, 29" deep side bench frames that run the entire length of the outer walls. A large 5' wide, double-tiered center bench frame provides extra growing space.

Model/Size Specifications:

G-308 16'W x 8'L x 9'6"H
G-316 16'W x 16'L x 9'6"H
G-320 16'W x 20'L x 9'6"H

Most Economical to Heat

Independent tests prove Solexx provides better insulation than even 8mm triple-wall polycarbonate. Plants thrive while you save on energy costs.

The Best Light for Plants

Solexx diffuses light evenly throughout the greenhouse eliminating hot spots and shadows. This additional light exposure increases the plant's photosynthesis, creating more energy and more robust, healthy growth.

Extremely Durable

Solexx offers a 10-year warranty with an even longer life expectancy. It withstands snow, wind, and hail and won't fade or yellow over time. Best of all it requires little maintenance.

Cutting-Edge Framing

Solexx frames offer the strength of steel without rust and corrosion. This pultruded, composite material was created to replace steel-beam construction in bridges! The white, reflective color won't cast shadows, which contributes to the superior light quality.

Greenhouse Bench Frames and Hanging Rods Included

Each roomy, full-length frame holds up to 500 lbs, so you can pack your greenhouse with plants. Steel-reinforced hanging rods run the length of the greenhouse giving you the perfect spot to overwinter your hanging baskets (optional wire shelving available).
